These are the requirements for Homework 2:

Homework 2 – Test Case and Bug Report Templates

- Access the link to the product page.

- Following the provided instructions, write at least **5 Test Cases**.

- Based on the Test Cases, test the application, identify issues, and create **5 Bug Reports** using the given template.

- Try to think of both **positive and negative scenarios**.
  A negative scenario example would be attempting to log in using an email address with an incorrect format.

- In addition to testing what *should work*, make sure to also test what *should not work*.
